

**His Excellency Antonio Guterres
Secretary General of the United Nations**

We are writing to you to request the UN's urgent intervention to bring about an end to the war crimes and atrocities being carried out by Israel in its onslaught on Gaza and the West Bank.

At the time of writing the Ministry of Health in Gaza is reporting that the Israeli war machine has killed nearly 6000 Palestinians and wounded over 15,000 in Gaza, the overwhelming majority of them civilians. Over 2350 of these have been children. An estimated 1500 people are missing, presumed buried under the rubble, of which over 800 are children. In the West Bank approximately 100 people have been killed and many more wounded by Israeli forces, again the vast majority of them being civilians.

In the course of its assault on the densely populated Gaza Strip, Israel has wantonly violated international law by targeting civilian infrastructure. This has included residential buildings, schools, hospitals, ambulances, mosques, churches, supermarkets, roads full of fleeing people and food production plants. It has also directly targeted gatherings of civilians as it did on 17/10/2023 when it bombed the grounds of the Baptist Hospital in Gaza where displaced residents were seeking refuge and when it bombed a convoy carrying civilians to the south of Gaza on 13/10/2023.

Israel has also used white phosphorus in Gaza and Lebanon, according to multiple human rights groups including Human Rights Watch. White phosphorus is unlawfully indiscriminate when airburst in populated urban areas, where it can burn down houses and cause egregious harm to civilians. White phosphorus burns at more than 800 degrees Celsius (nearly 1,500 degrees Fahrenheit), hot enough temperature to melt metal.

According to the UN's own workers and officials there are no safe places in Gaza. Gaza is under total siege and constant bombardment. The humanitarian situation for civilians is desperate with hospitals overflowing, medical equipment in short supply, electricity and water cut off by Israel and food supplies dwindling owing to the siege.

It is abundantly clear that in abandoning the requirement to uphold the principles of proportionality and distinction between civilians and combatants, Israel is in gross violation of international law.

According to Marc Garlasco, a military adviser at the Dutch organization PAX for Peace and former UN war crimes investigator in Libya, Israel is "dropping in less than a week what the US was dropping in Afghanistan in a year, in a much smaller, much more densely populated area, where mistakes are going to be magnified."

In light of the war crimes currently being perpetrated on the people of Gaza what action do you intend to take to try and rein in the Israeli war machine? The UN was formed in the wake of World War 2 with the express purpose of upholding a rules based world order and to prevent a repeat of the horrors of that conflict. That being the case how much longer is the organization going to stand by and watch as a genocide unfolds before our very eyes?

We urge and expect you to rise to the need of the hour and spare no effort to help end this bloodbath by reining in Israel, establishing an immediate ceasefire and working to arrange the immediate delivery of humanitarian assistance to the Gaza Strip.

Unless Israel is stopped and held accountable for the crimes it is currently committing in Gaza and the West Bank it will continue to kill and maim with impunity and to make a mockery of international law.
